

Undercounter High Temperature Dishwashing Machine with Built-in Booster Heater Model N900

by MOYER DIEBEL

STANDARD FEATURES

ENERGY EFFICIENT

- ✓ Exclusive 30 amp breaker machine.
- ✓ Highly effective 5kW booster heater.

FUNCTIONALITY

- \checkmark "NEW" Intuitive LCD Control Display clearly identifies temperature and cycle times.
- ✓ Automatic fill at start up.
- ✓ Exclusive pumped wash pushes pressurised water through the spray arms under pressure during the wash & rinse cycles.
- ✓ Double skin hinged door an integral component made from industry leading design offers a robust quality to meet operational demand.
- AutoClean washes chamber at shutdown.
- ✓ Pumped Drain.
- ✓ 1 Year Limited Warranty (Parts & Labour).
- ✓ Complete with one peg rack.
- ✓ 100% designed and built.

✓ nexus safeguard - Monitors and assures 180°F/82°C is reached in final rinse temperature to meet NSF rated sanitization requirements.

SERVICEABILITY

- ✓ Visual Diagnostics guide the user through every step of the **nexus** N900 operating system including immediate service feedback.
- ✓ Designed with easy access to replacement parts for ease of service.
- ✓ Reduced downtime and cost of ownership.

OPTIONS & ACCESSORIES

☐ 17RS – 17" Stand

P/N 0708757

☐ Drain tempering kit

P/N 0714380

☐ Flat bottom dishrack

P/N 101273

Made in Canada

INDUSTRY EXCLUSIVE - FILL AND DRAIN OPERATING PRINCIPLE

What does fill and drain mean?

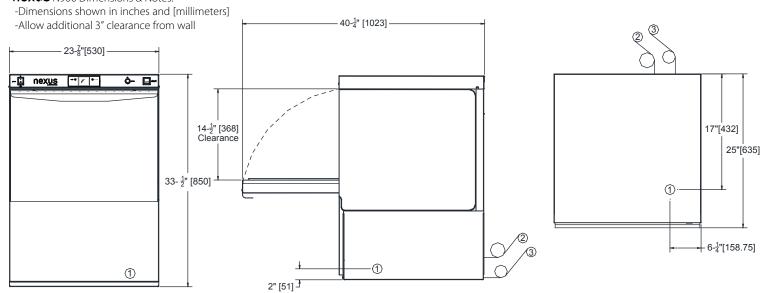

The **nexus** system will automatically drain the water in the machine after every wash cycle and fill the **nexus** N900 with water prior to the rinse cycle which ensures your wares are sanitized using the cleanest water possible for industry leading wash results.

Why is this important?

nexus Fill & Drain Technology ensures clean water is used for every rinse cycle. The **nexus** N900 recycles this very rinse water for the next wash cycle which means your wares are clean and your machine is too. In addition, The **nexus** M900 undercounter maintains even water pressure during the industry exclusive pumped wash & rinse cycle. Great for heavy soil applications.
