Project _____

Item No. _____

Quantity _____

SECURITY OPTIONS

For Rack Conveyor and Upright Conveyor Series Dishwashing Machines

Tamper Proof Screws

All exposed screws are available in a tamper proof design. These fasteners can be removed only with a special tool.

Bottom Grid

A protective grid underneath the machine denies access to pumps and motors.

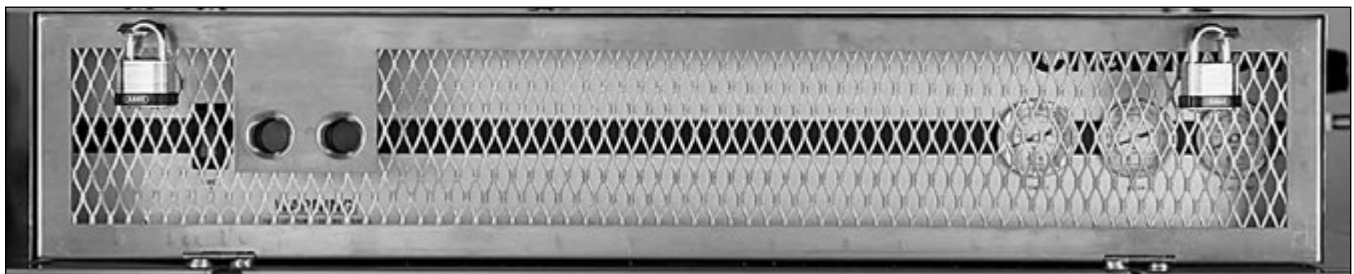

Hasp Locks

Locking capability is included for protective covers and surfaces such as control panel, access doors and hinged scrap screen covers.

Control Panel

Stainless steel protective grid shields the gauges and limits access to the controls.

Conveyor Series Dishwashing Machines

Champion[®]
The Dishwashing Machine Specialists

Welded Curtain Hooks

Curtains easily attached with welded hooks or tamper proof screws.

Stainless Steel Conveyor Belt

Upright Conveyor Only.

Peg belt designed for the correctional environment in stainless steel and has slides on lower return guides to provide support and durability.

Bumper Rails

Upright Conveyor Only.

Machine mounted bumper rails protect the sides and ends of the machine from impact by carts.

Champion Durability!

Champion correctional machines are designed for heavy duty use and durability. Special reinforced scrap screens, scrap basket with hinged lid and heavy gauge frame are all part of high impact durable construction for long life in difficult environments.
